PREDILLA STANLEY

SOFTWARE DEVELOPER

+639157013061 stanpreds@gmail.com Angeles City, Pampanga

SUMMARY

A dedicated computer science student that has a solid foundation in Python and Javascript. Worked in projects where learning new languages on the go is the norm, like flutter and React. Skilled in Python, JavaScript and Dart and has dabbled in HTML, CSS, SQL and Java.

PROJECTS

Nestr- A React Project

Nestr is an Activity Logger meant to game-ify your tasks, giving rewards to finished tasks with Creatures hatched from eggs.

https://github.com/Staniscoding-ui/Nestr

TSC Model - Python based Machine learning Project

A Python-based pipeline for classifying road traffic signs, built on the German Traffic Sign Recognition Benchmark Dataset. I was the projects lead and Integration lead.

https://github.com/ZelhaDev/TSC-Model

FitMetricsApp - A Flutter Fitness Project

FitMetricsApp is a Flutter and Dart app meant to work as a wellness tracker for weight loss and weight gain. I worked as a front end developer, with the Progress Tracker as my main contribution.

EDUCATION

Bachelor of Science in Computer Science

Holy Angel University | 2022-present

CERTIFICATES

AWS ACADEMY CLOUD FOUNDATIONS
Mar 2026

ENGLISH FOR IT
Oct 2024

JAVASCRIPT FUNDAMENTALS
Oct 2024

JAVASCRIPT FUNDAMENTALS
Oct 2024

PYTHON ESSENTIALS
Nov 2023

COMPTIA+ IT FUNDAMENTALS+
Nov 2023

HARD SKILLS

Javascript
Java
Python
HTML
CSS
Dart
Flutter

SOFT SKILLS

Adaptability
Critical Thinking
Communication skills
Collaboration
Networking
Problem Solving
